

# UAV Mission Trainer

Itai A. Toren  
Programs Manager

Report Documentation Page			Form Approved OMB No. 0704-0188		
Public reporting burden for the collection of information is estimated to average 1 hour per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to Washington Headquarters Services, Directorate for Information Operations and Reports, 1215 Jefferson Davis Highway, Suite 1204, Arlington VA 22202-4302. Respondents should be aware that notwithstanding any other provision of law, no person shall be subject to a penalty for failing to comply with a collection of information if it does not display a currently valid OMB control number.

# Presentation Contents

-  Silver Arrow company overview
-  Mission trainer highlights and overview
-  System configuration and features

# Background

- Established 1985
- In-house UAV experience of 17 years, based on IDF operational experience of 27 years
- Prime supplier of tactical new generation UAV systems to the IDF

*Silver  
Arrow* 

A Subsidiary of  
**ELbit**  
SYSTEMS LTD.

**ELbit**  
SYSTEMS LTD.

# HERMES 180

## General data:

- Gross weight 180Kg
- Endurance 10 hrs
- Wing span 6m
- Payload 32Kg
- Ceiling 15Kft
- Power supply 1.2Kw

## Catapult launch, parachute/airbag recovery

## Day + night + laser designator payloads

# HERMES 450

*Silver  
Arrow*

A Subsidiary of  
**ELbit**  
SYSTEMS LTD.

# HERMES 450

## General data:

- Gross weight 450Kg
- Endurance 20 hrs
- Wing span 10.5m
- Payload 150 Kg
- Ceiling 18 Kft
- Power supply 2.2Kw

Real-time day & night imagery SAR

Other

# HERMES 1500

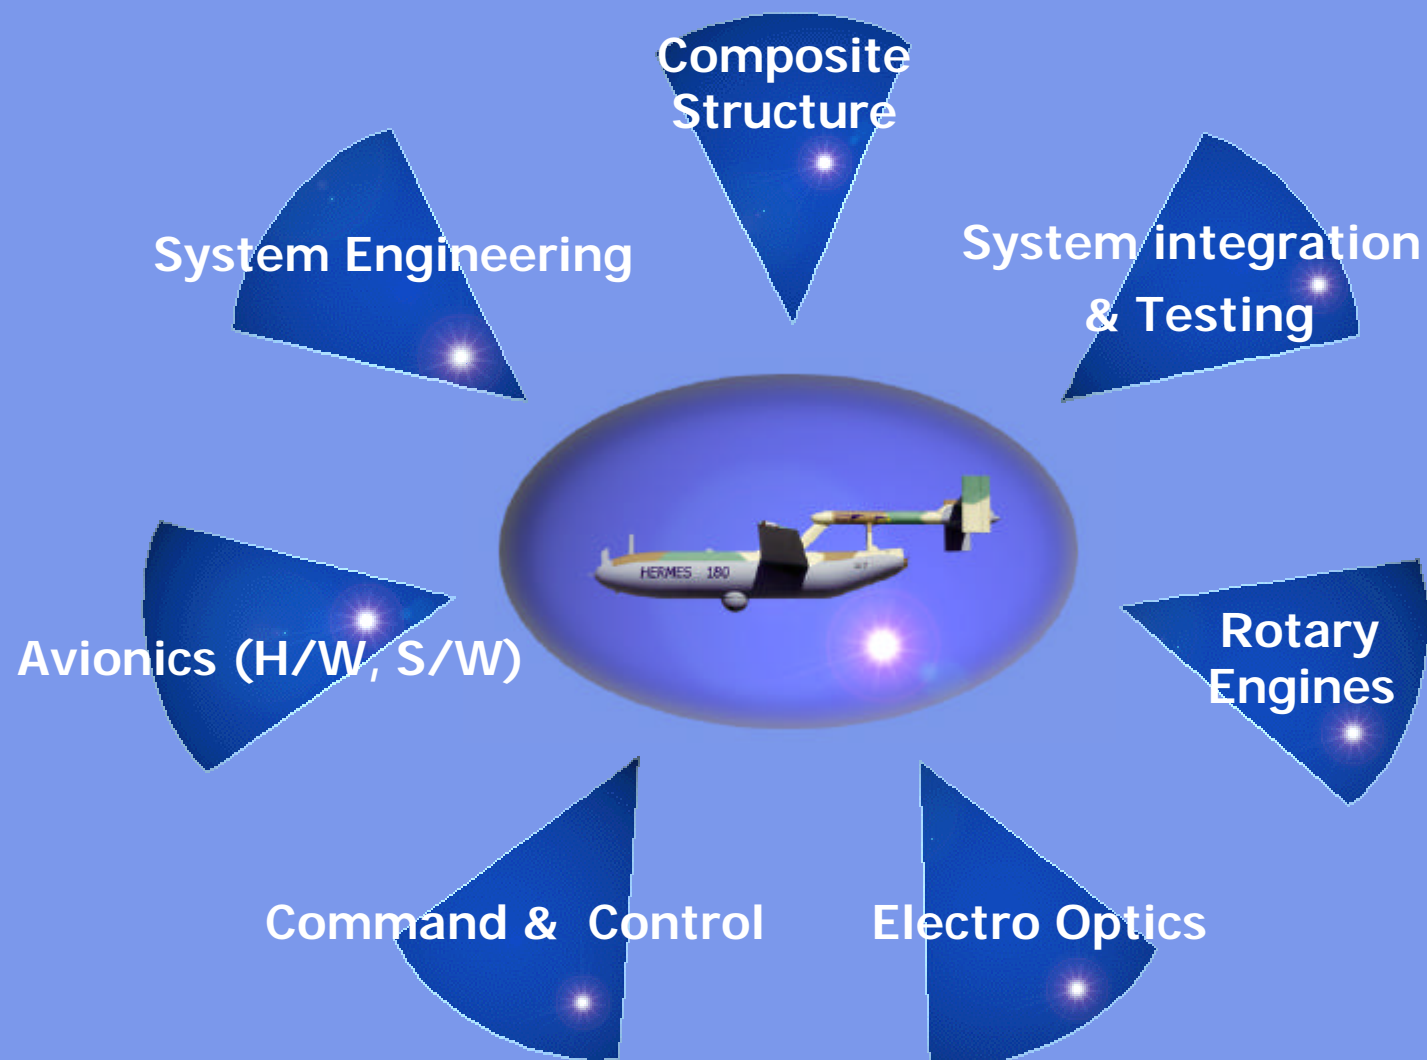

- ☛ General data:
  - Gross weight 1500Kg
  - Endurance 25 hrs
  - Wing span 15m
  - Payload 350Kg
  - Ceiling 30Kft
  - Power supply 9.8Kw
- ☛ Day & night imagery + SAR
- ☛ Maritime patrol & other

SYSTEMS INC.

# Technologies & Expertise

*Silver  
Arrow*

A Subsidiary of  
**ELbit**  
SYSTEMS LTD.

# The Need For UAV Trainer

- ☞ Reducing the number of actual sorties
- ☞ Disregarding the actual weather conditions and technical availability
- ☞ Many airborne and ground subsystems to operate and control
- ☞ Training in emergency and malfunction situations
- ☞ Capability of mission rehearsal

# Visual Simulation

"Everything is possible.  
The impossible just  
takes a bit longer..."

*Silver  
Arrow*

A Subsidiary of  
**ELbit**  
SYSTEMS LTD.

# The UAV Trainer Goal

To enable the GCS operators to train mission planning and execution in their own natural operational environment

*Silver  
Arrow*

A Subsidiary of  
**ELBIT**  
SYSTEMS INC.

# Trainer Highlights

- ☛ 3D terrain DB with resolution of up to 25 cm/pixel
- ☛ Day (CCD camera) and night (FLIR) sensor simulation.  
Including noise, jitter, and variations in sensor responsiveness

- ☛ Realistic frame rate generation

*Silver  
Arrow*

A Subsidiary of  
**ELbit**  
SYSTEMS LTD.

# Trainer Highlights

- Continuous zoom and video rotating and tilting
- 3D ground tracking vehicles (stationary and mobile)
- DIS compliant

*Silver  
Arrow* 

A Subsidiary of  
**ELbit**  
SYSTEMS LTD.

# Trainer Highlights

- ☰ The UAV flight model (6DoF) is simulated in detail

- ☰ Full simulation of the UAV systems

- ☰ The electro-optical tracking system is simulated

*Silver  
Arrow*

A Subsidiary of  
**ELIT**  
SYSTEMS LLC

# Trainer Highlights

☞ Dedicated scenario generator

☞ Ability to train both in normal operating environment and in malfunction / emergency situations

*Silver  
Arrow*

A Subsidiary of  
**ELbit**  
SYSTEMS LTD.

# Trainer Highlights

- 
- HERMES 450
- ☰ Covering the full range of mission phases:
    - Mission planning
    - cruising
    - reconnaissance
    - surveillance tasks: artillery adjustment, damage assessment and more.

*Silver  
Arrow*

A Subsidiary of  
**ELbit**  
SYSTEMS LTD.

# Trainer Highlights

- € Training in the actual operators' environment - standard GCS environment.

*Silver  
Arrow*

A Subsidiary of  
**ELbit**  
SYSTEMS LTD.

# Weather and Battlefield Effects

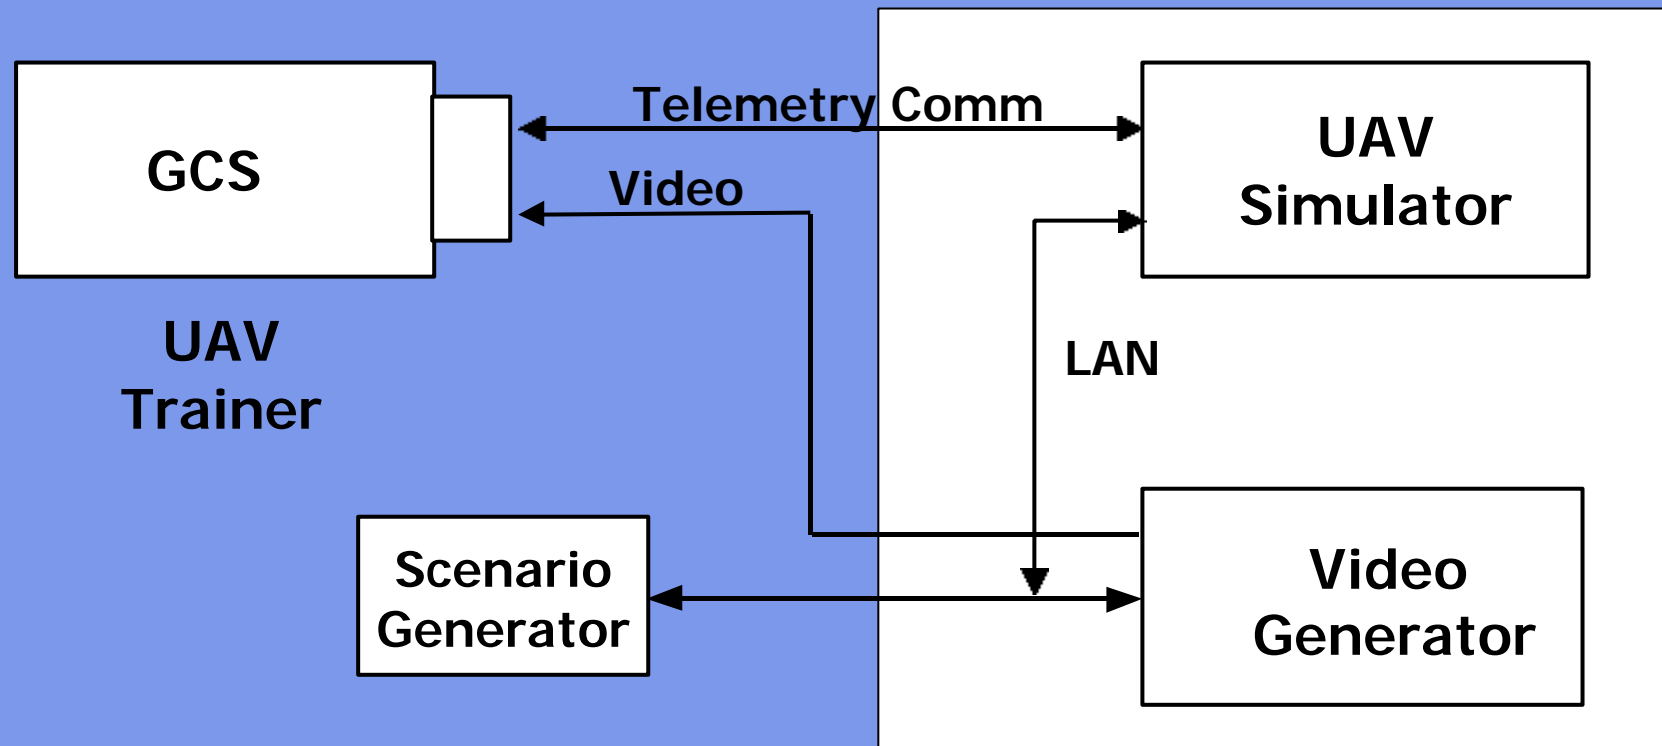

- ☾ Fog/Haze with control over the visibility
- ☾ Clouds - various kinds of 3D, radiometric correct clouds with control over their location, altitude and density
- ☾ Ground shadows for the ground objects

# Weather and Battlefield Effects

- ☰ Smoke and dust with accurate display both in visible light and thermal view, swaying according to the wind
- ☰ Various kinds of explosions and fire with accurate display both in visible light and thermal view

# General Configuration

# UAV and UAV Systems Simulator

The UAV and UAV systems simulator is a real time simulator which simulates:

- UAV flight (6 DOF)
- Payload operation (except the video)
- UAV communication
- UAV systems

*Silver  
Arrow*

A Subsidiary of  
**ELbit**  
SYSTEMS LTD.

# High-Resolution Visual Video Generator

The High-Resolution Visual Video generator generates “real” video of the outside world including:

- Terrain
- Ground vehicles (both stationary and moving)
- Weather affects such as clouds and haze conditions
- Special effects such as explosions, smoke and dust

*Silver  
Arrow* 

A Subsidiary of  
 **Eli**  
SYSTEMS INC.

# High-Resolution Visual Video Generator

## Realistic 3D Video:

- Smooth movement across the terrain
- Smooth zoom (change of FOV)
- Rotation and tilt according to the UAV and payload maneuver

*Silver  
Arrow* 

A Subsidiary of  
**ELbit**  
SYSTEMS LTD.

# High-Resolution Visual Video Generator

The High-Resolution Video Generator produces both regular daylight visual output and day/night FLIR output.

# Scenario Generator

- € The scenario generator is implemented in the instructor station. It is used during the preparation and running stages of the exercise
- € The scenario generator is used to create, update, and control the training scenarios
- € A scenario includes the terrain, ground vehicles, weather conditions, training parameters, events and malfunctions

# Scenario Generator

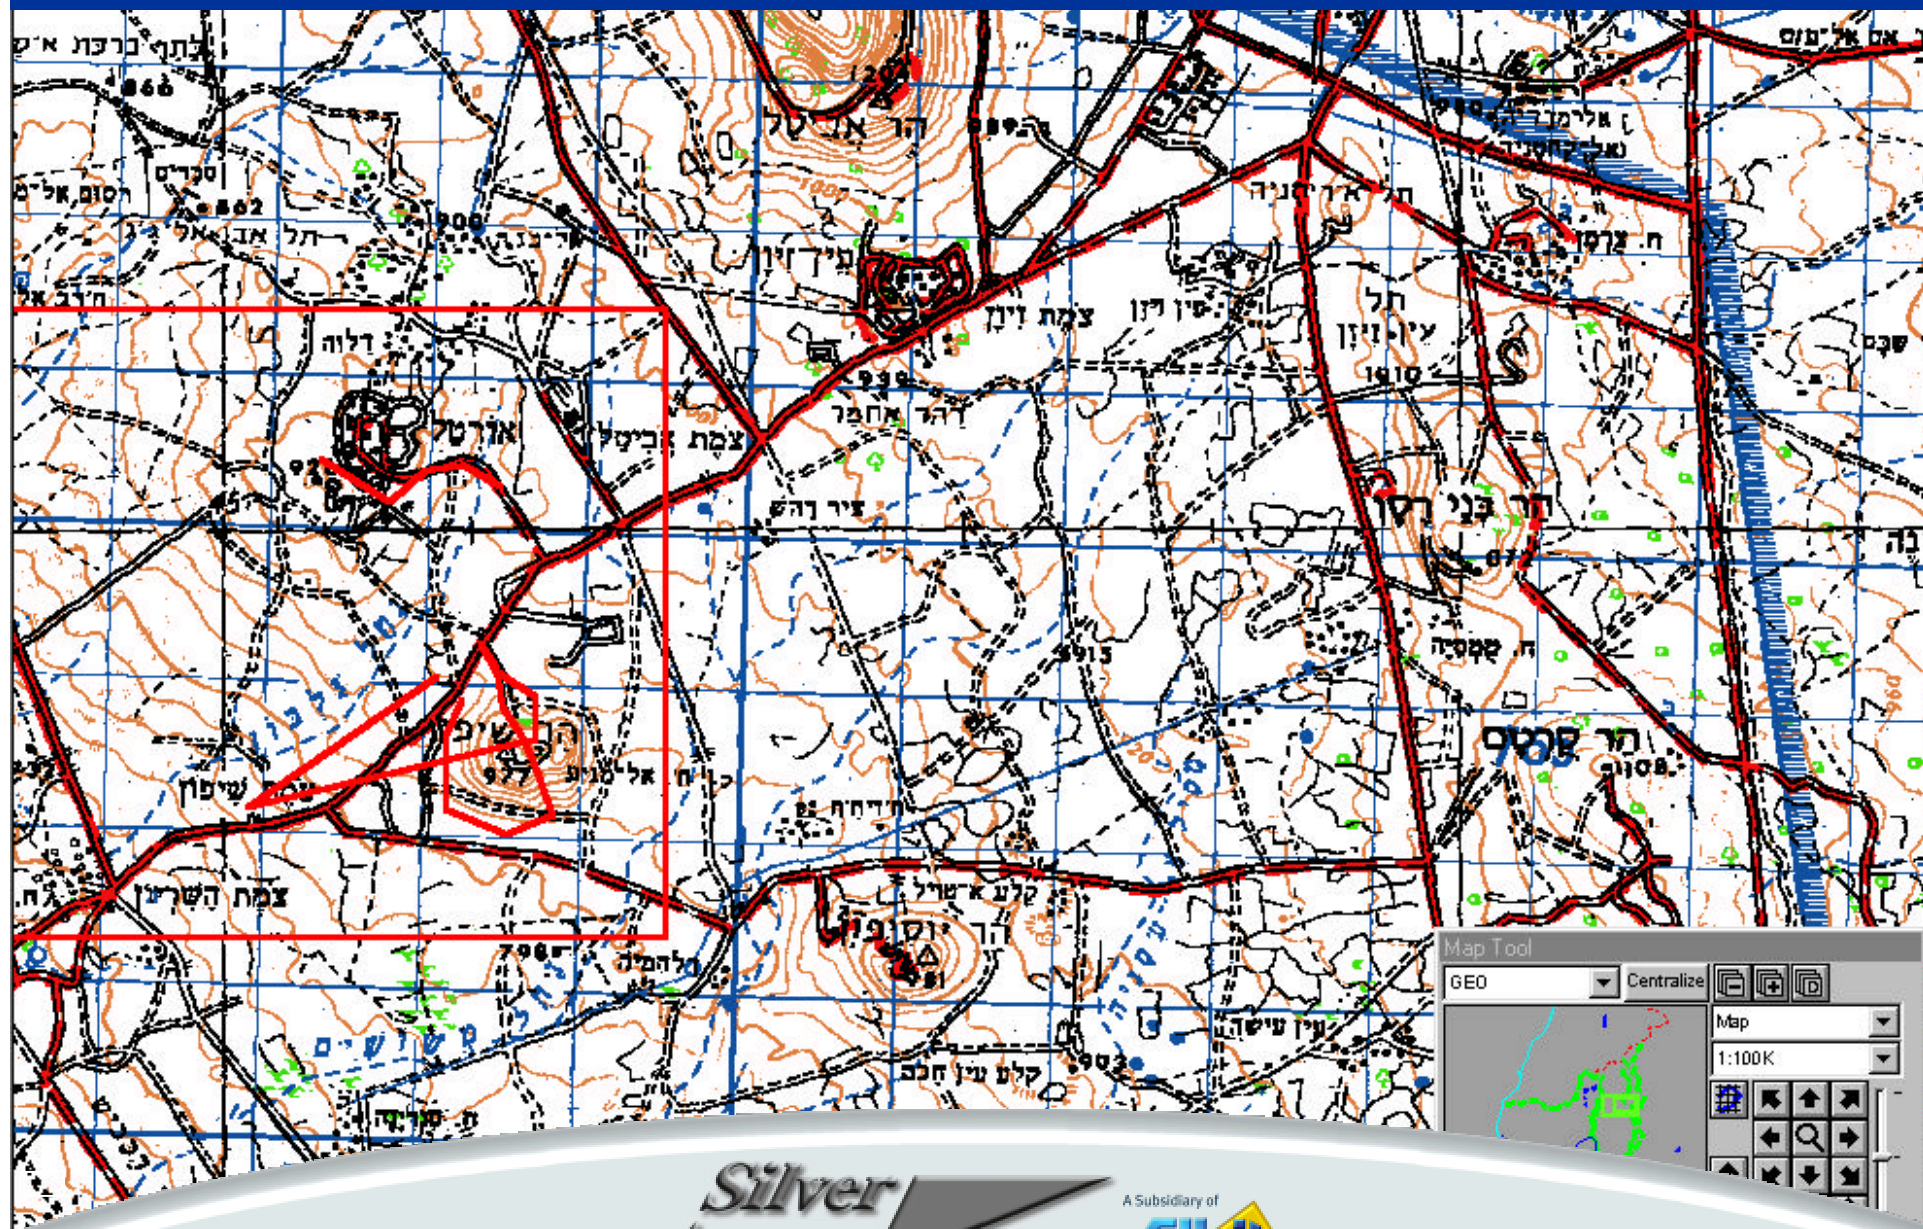

The control functions allow the instructor to:

- Start / stop the exercise
- Jump forward and backwards in time
- Inject events such as faults and weather changes in real-time  
(overriding the events in the scenario)

# Scenario Generator View

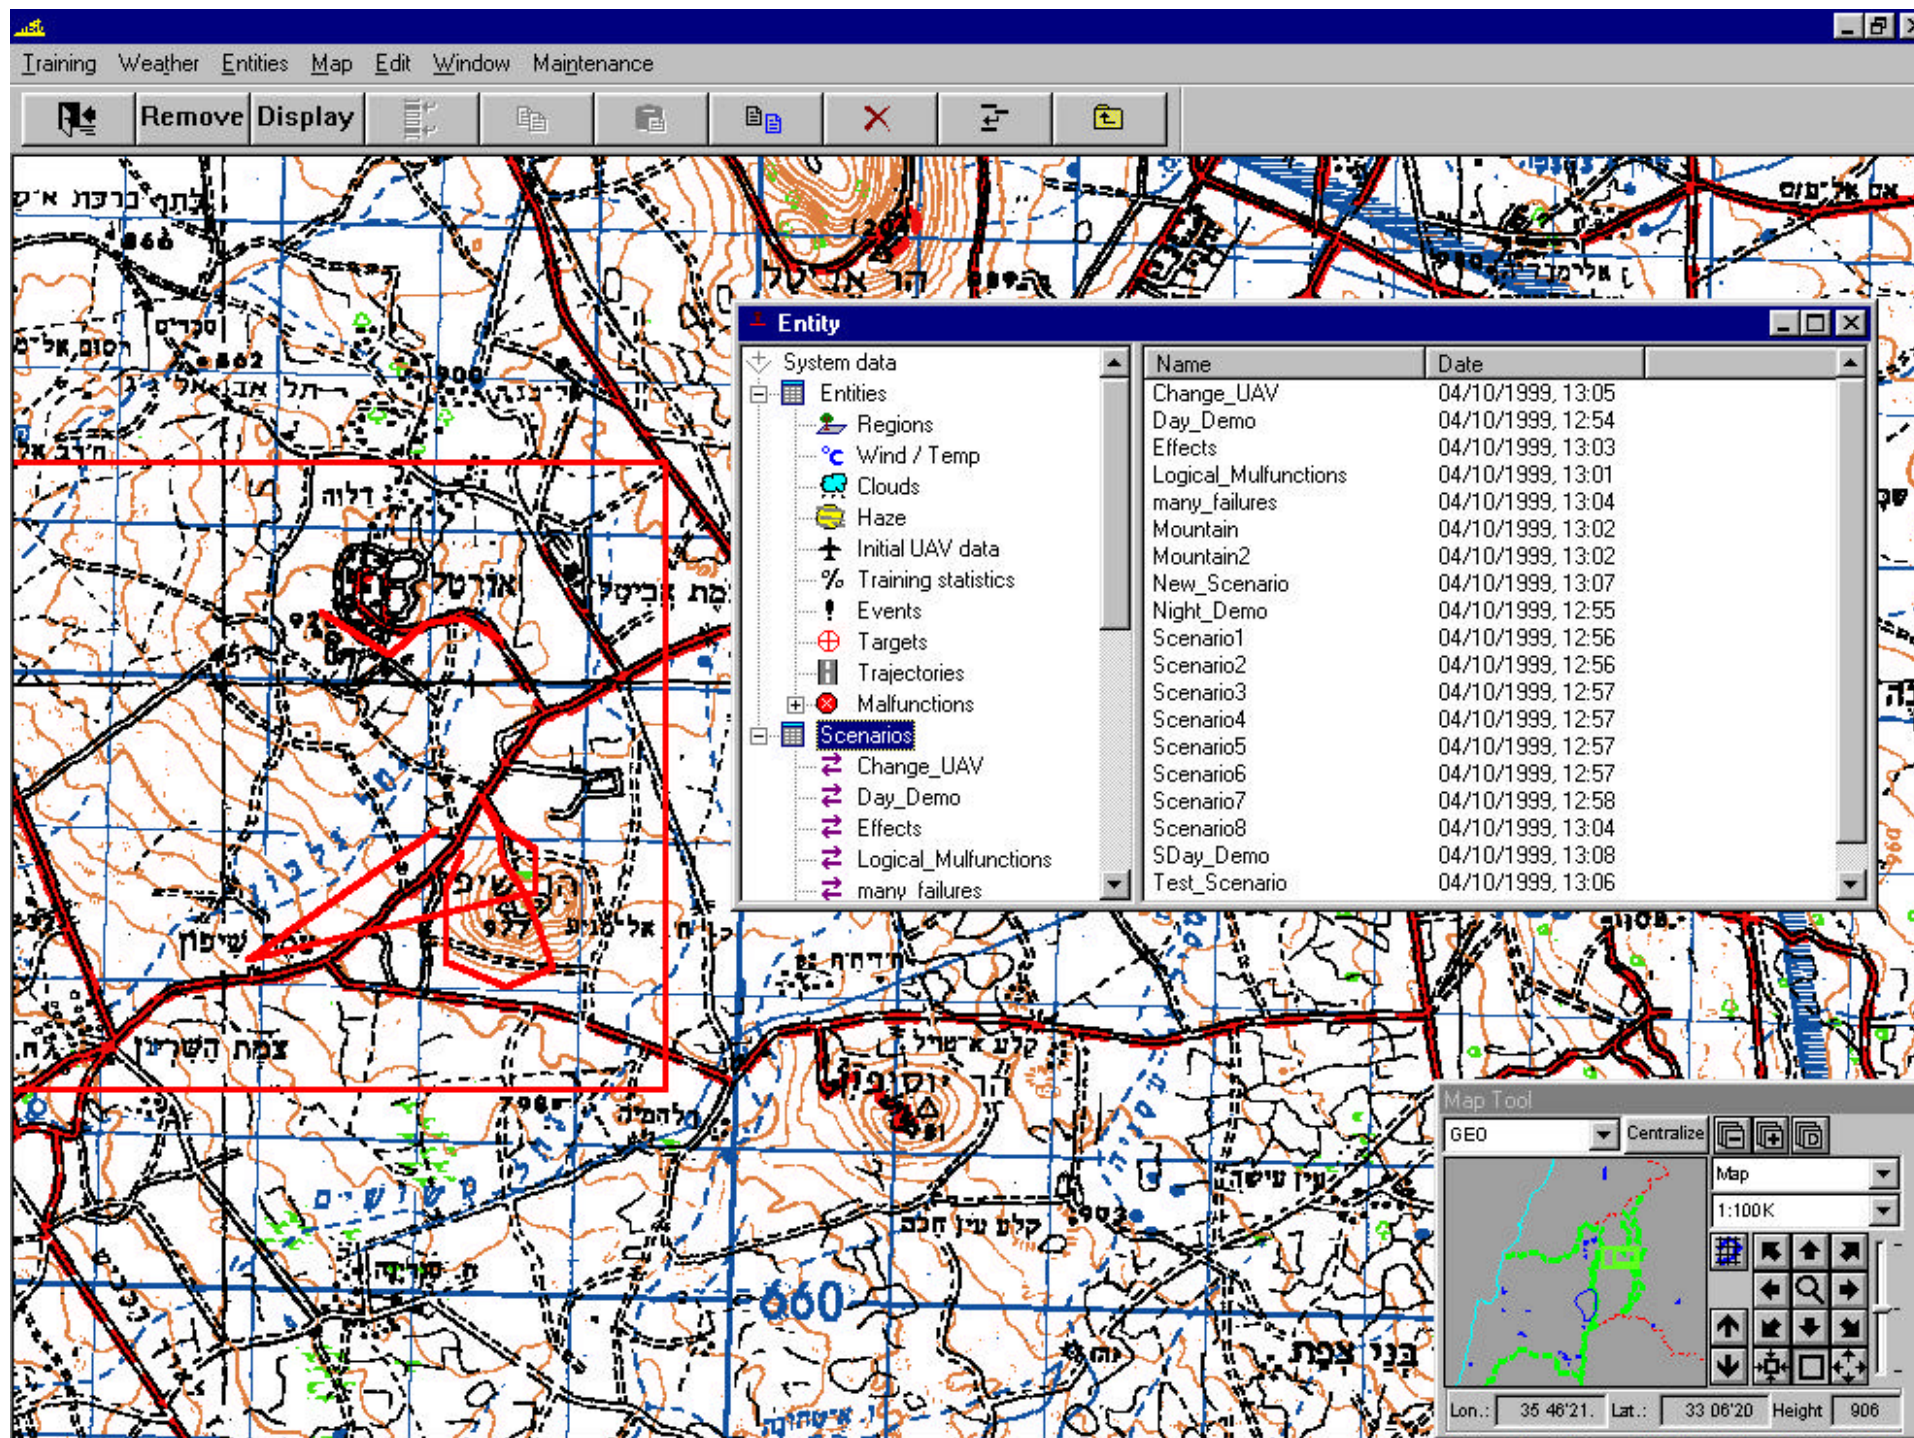

*Silver  
Arrow*

A Subsidiary of

# Joint Distributed Training

- The tactical UAV mission trainer is DIS compliant (simulation comm. protocol)
- Create joint distributed training environments. Different units can train and interact on the same scenario at the same time.
- Joint and cross platforms/systems/units operations training (intelligence forces, artillery units, air support squadrons etc.)

# UAV Trainer Configurations

- The Trainer has four basic configurations:
  - Embedded Trainer
  - Low-End, Low-Cost deployable / stationary trainer, based on NT graphic platform
  - High-End graphics, deployable / stationary trainer, based on SGI's ONYX 2 machine.
  - Training center.
